

“.. the windows and doors.....were perfect..”

Carson Fischer
Commercial Window Systems

3/16/10

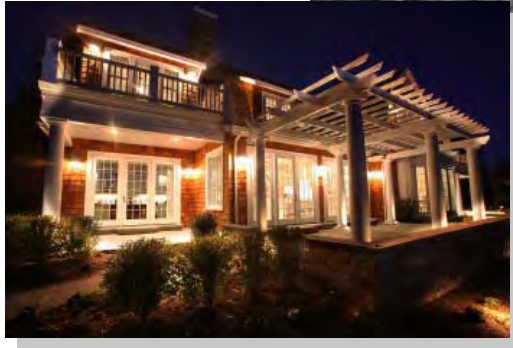

Dear Carson,

We just completed a beautiful home on a waterfront property in Gig Harbor that we both worked on. I was going over the final details with the new owners and they shared with me all the things that made this home special for them. They were so impressed with the quality of the materials that we used on their home. This brought me to writing this letter to thank you for being part of our team.

I want you to know that the windows and doors that were selected for this home were perfect for the look that they were trying to achieve. Your salesman was very helpful when we walked through each room and discussed how each window and door would function. He also noticed that a couple of windows would not meet code as they were drawn on the plan and was able to come up with a solution that did not affect the look of the house. I appreciate your team and how they were able to support us with hardware adjustments and miscellaneous tweaks to make all the windows and doors work with ease.

On my next project you can count on a call from me.

Thank you,

Commercial

To Whom It May Concern,

I have been building residential and commercial buildings for about 30 years. I have purchased windows supplied by Carson Fischer for about 18 of those 30 years. My largest project was a 12,000 square foot estate for some very affluent and detail oriented clients. Carson was very knowledgeable, organized and responsive to myself and my clients.

During that time, I have been very happy with the quality of knowledge and representation that Carson and his staff have provided. They have been team players who are diligent, conscientious and thorough.

Sincerely,

Jaynee McMeekin

“...Flawless and Successful Execution...”

To whom it may concern,

We recently renovated two historic buildings in the Pioneer District of Seattle. These were three story building s built in the early 1900, one of which, The Funya, we restored to its original five stories.

We interviewed several window manufacturers. At the architect's recommendation, we selected Commercial Window Systems for our window needs.

This was a very complex project that only got more complex as it progressed. The process was closely scrutinized for strict historic compliance, and a lot of this attention was directed at the windows.

Commercial Window System's attention to detail allowed us to pass historic review the first time. Coordinating the window details with the GFRG stone façade of the Funya's restored upper floors demanded a high level of cooperation, and monitoring, to ensure success. This was especially true of the large Diodetan windows, as they had to fit stone openings that did not yet exist, and were comprised of individual elements that could not be modified at installation. Commercial Window spared no effort in assuring a flawless and successful execution of their scope.

The windows and doors were on time, complete, and correct. Additionally, they were responsive to our needs. When we found a three storey brick wall that was seriously twisted, Commercial Window provided solutions that were timely and effective.

Based on our experience, we can recommend Commercial Window Systems for complicated projects and historic projects.

Sincerely,

Michael Dooley

“.. a complex project...we can recommend them..”

CLOSE CONSTRUCTION CO.

250 NW CORNELIUS PASS ROAD
HILLSBORO, OR 97124

To Whom it may concern,

I was selected to manage the renovation of the Arctic Club building for A & A Construction & Development. This was an early 1900 ten storey building being transformed into a boutique hotel.

We interviewed several window manufacturers. As the low bidder became unresponsive, we selected Commercial Window Systems as our exterior window supplier. They supplied Eagle windows and doors.

This was a very complex project. We had a tight site in an inner city business district. The process was made even more complex with numerous regulatory agencies overseeing the historic and code compliance. A lot of this attention was directed at the windows.

Carson and Commercial Windows custom designed creative window and installation solutions that allowed us to pass the historic review the first time. When it was time to order, they hand measured each of the approximately 450 openings to make sure there would be no surprises. And there weren't.

Of greater importance, though, has been the responsiveness to our needs. The windows and doors were on time and complete. When we needed support, there were no dropped balls. Commercial Window helped us set up and self perform the installation, which was a huge savings. In this case, I am convinced that the low bidder would have eventually cost us a lot more money.

Based on our experience, we can recommend Commercial Window Systems for complicated historic projects.

Sincerely,

Jeff Close

To Whom it may concern,
Simplex Construction was recently selected to build two five storey condominiums in Lakewood Washington along with a clubhouse expansion. The condominiums were high end properties on American Lake and in the center of the Tacoma Country and Golf Club.

We interviewed and selected Commercial Window Systems as our exterior window and door supplier. They supplied Eagle windows and doors.

We were very pleased with the quality of service and products we received. Commercial Window gave us guidance on compliance with the Washington State condominium act which made the process smooth and uneventful. When the time came for envelope testing, we were prepared and the tests were passed on the first attempt.

Of greater importance, though, has been the responsiveness to our needs and those of our clients. Windows and doors were on time, complete, and correct the first time. When we needed help, even with small parts, they were only a phone call away.
Based on our experience, we can recommend Commercial Window Systems for similar projects.

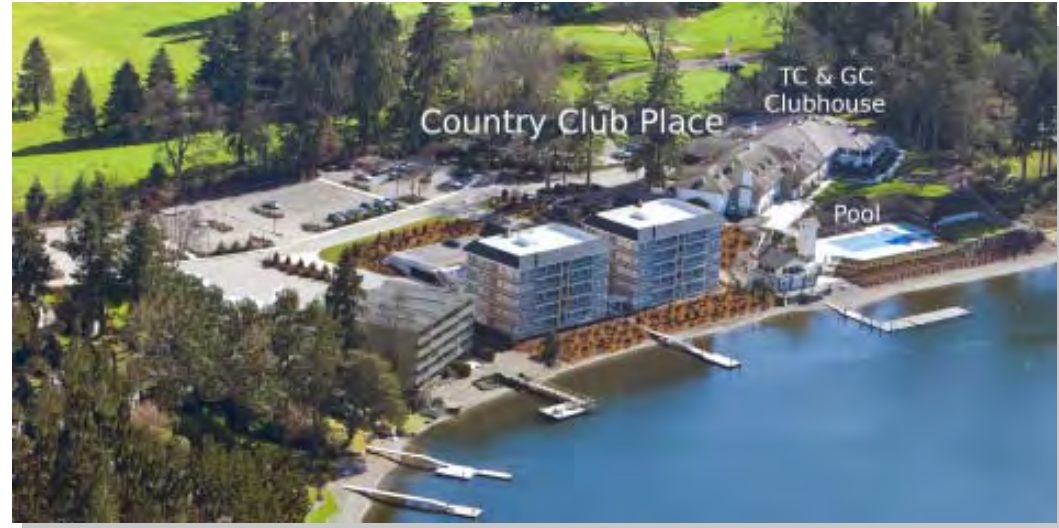

Sincerely,

“Without hesitation I recommend...”

1074 7th Avenue SE, Big Harbor, WA, 98022 | 252.437.7344

May 5, 2010

To whom it may concern,

Winter & Sons has been a local builder of residential homes for nearly fifty years. We have recently completed a custom home on Bainbridge Island in which Carson Fischer of Commercial Window Systems supplied the Eagle windows for the home. We enjoyed installing the Eagle windows and found them to be a high quality window for a reasonable price. Furthermore, the homeowners were very pleased with the look and quality of the windows.

It is always a pleasure working with Carson on selecting a window due to his depth of knowledge of the available window systems. Carson went above and beyond to ensure that the finished product met or exceeded the expectations of the homeowners. I have found Carson's years of experience in the industry and knowledge of available products to be invaluable. He is thorough, conscientious and always willing to make himself available to assist with any problems or concerns.

Without hesitation I can recommend Carson Fischer and Commercial Window Systems. I look forward to working with him in the future.

Sincerely,

Jeff Winter

“.. I would recommend them..”

RUSHFORTH
CONSTRUCTION

GENERAL CONTRACTORS

August 4, 2000

To whom it may concern,

Rushforth Construction recently completed construction of the Snoqualmie Ridge Golf Course Clubhouse, a 48, 000 square foot high quality facility. Our window supplier on the project was Window Distributors, Inc., who furnished Kolbe & Kolbe brand window units.

I would recommend John Evans and Window Distributors for any project of this scope and quality. They were attentive to details through the shop drawing process, delivered product as scheduled and were a team player throughout the entire period of construction.

I would recommend them as window supplier and welcome the opportunity to work with John and Window Distributors again in the future.

Friday, June 1, 2007

To whom it may concern

Hartsook Homes has recently completed four new homes on the Steamboat Peninsula north of Olympia. The homes are high end customs ranging in size from 4,000 to 8,000 square feet. Carson Fischer of Cascade Window / Commercial Window Systems provided the windows and doors for all four homes. The quality, fit and finish of the product met my expectations and added significantly to the final appearance of the home. More important than the quality of the window system, was the quality service provided by Carson. He worked with the architect in the design process, he made sure at the time of the order that everything was right, and he was present during installation to cover any questions on the part of the framers. After installation Carson has always been available for service or questions on the part of the new owner.

I would recommend Carson Fischer and Cascade Windows / Commercial Window Systems as a window and door supplier.

Sincerely,

December 19, 2000

To whom it may concern

Tiger Construction recently completed construction of Kendall Elementary School, a 5 1,000 square foot grade school in the foothills of Whatcom County. Our window supplier on the project was Window Distributors, Inc., who furnished Kolbe & Kolbe brand window units.

The architectural design for this school complemented the logging community in which the school was built. The wood windows were an excellent complement to this design. Carson Fisher and Window Distributors did an excellent job providing the Architect and owner with the information necessary to satisfy their concerns about using wood windows in an elementary school. The Architect and School Officials were very happy with the finished product.

I would recommend Window Distributors as a window supplier and welcome the opportunity to work with them in the future.

Sincerely,

AUGUST 27, 2009

DEAR CARSON,

MIRIAM AND I WOULD LIKE TO EXPRESS OUR SINCERE GRATITUDE AND APPRECIATION TO YOU FOR YOUR CONTRIBUTION IN MAKING OUR "DREAM HOME" A DREAM COME TRUE. YOUR INSIGHT AND EXPERTISE WAS A TREMENDOUS ASSET TO OUR PROJECT.

WE WERE VERY IMPRESSED WITH YOUR PROMPT RESPONSE TO PHONE CALLS AND DELIVERY OF ALL 80 WINDOW UNITS WITHOUT ANY PROBLEMS.

WE ARE HIGHLY RECOMMENDING YOU AND YOUR PRODUCTS TO EVERYONE WE KNOW.

“.. Your service was beyond the call ..”

Dear Carson,

3-17-02

Enclosed is only a snapshot of the view from our bedroom through our new Kolbe & Kolbe windows. We can't tell you how pleased we are with our new windows - and are so grateful for all of the help that you provided with our planning & design this past year.

Your service was beyond the call of your obligation & we so greatly appreciated all that you did to help us with this home!

We will recommend you to all of our friends building houses in the future! Sincerely,
Steve & Liz Norton

Subject: Windows for our New Home

Now that our new home is finished and we are moved in I wanted to take a minute and drop you a note on our windows and doors. We did a considerable amount of investigation prior to focusing in on the Kolbe and Kolbe windows and doors for our new Waterfront home. The windows and doors have lived up to our expectations and we would like to thank you for the great service that you provided. Because of the large number of windows, and our desire to provide the maximum view from any room in the house, the planning had to be just right. Your support and assistance was very valuable to a most successful outcome. We love the finished product. Thank you again for all your assistance. P. S. We have already recommended your product to a number of our friends.
